As for the years themselves, 2020 was the leading year with the most motor theft. As for 2021, we could expect another big year in theft, considering that only to April, 2021 has already passed 2017 and 2018.

We have yet to see what June through September brings in for motor theft in 2021. Since 2021 has already 85 thefts just by April, if the month pattern stays consistent, then 2021 could be greater in motor theft than 2020.

Month	Year					
	2017	2018	2019	2020	2021	Total
January	5	4	5	7	26	47
